## Education

**Bachelor's of Technology in Computer Science** | VIT Bhopal University CGPA - **9.32**/10 | 2022-2026  
**12th Standard** | J.J Public School, Ashta Percentage - **96.7%** | 2020-2022  
**10th Standard** | Pushpa Sr. Sec. School, Ashta Percentage - **95%** | 2008-2020

## Experience

### Web Developer Intern

Code Speedy Technology Pvt Ltd Dec 2024-Feb 2025

- Developed and maintained **10+** web pages with React.js, improving user engagement.
- Participated in team meetings and brainstorming sessions, offering creative solutions to complex development challenges.
- Provided technical support to senior developers, helping to streamline workflows and improve overall productivity.
- Contributed to Git-based collaborative projects and ensured clean, documented code practices.

## Technical Skills

- Programming Languages** : Java, Python, JavaScript, HTML / CSS, TypeScript.
- Frameworks & Libraries** : React Native, Expo, React, Redux Toolkit, Tailwind CSS
- Developer Tools** : Git, GitHub, VS Code.
- Databases** : SQL, Firebase.
- Software Engineering** : Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming.

## Projects

**Sehat Sathi – Your Health Companion** (React Native, Expo, Async Storage) [GitHub](#)

- Implemented daily medication reminders using **expo-notifications** to ensure consistent alert delivery for users.
- Built refill and period tracking features to improve medication adherence and enhance menstrual health awareness.
- Added guided breathing exercises with calming audio to support user relaxation and mental well-being.
- Secured all health data locally on the device to maintain privacy and eliminate reliance on cloud storage.
- Designed a responsive, cross-platform interface using **React Native** and Expo for seamless Android and iOS support.

**GupShup - Real Time Chat App** (React.Js, Firebase, Tailwind CSS, Gemini API) [GitHub](#)

- Developed a fully responsive real-time chat application using **React.js** and **Firebase Firestore**, enabling seamless communication.
- Integrated **Firebase Authentication** for secure user sign-up and login with email/password.
- Implemented **AI-generated smart replies** and **chat summaries** using **Gemini API**, enhancing user interaction and conversation insights.
- Applied **Tailwind CSS** for consistent and adaptive UI/UX across devices.
- Optimized performance and real-time data sync using Firestore's snapshot listeners.

**AI Scholar** | React Native, Gemini API, Firebase, Expo Ongoing

- Building a cross-platform **React Native** application that leverages the **Gemini API** to generate personalized study courses, quizzes, and practice tests.
- Integrating **Firebase** Authentication and Firestore to manage secure user login, real-time course data, and personalized learning paths.
- Aiming to reduce manual course creation effort through AI-powered content generation.

## Certificates / Achievements

- GeeksforGeeks Institute Rank: **314** out of **9000+** registered students.
- Achieved a rank of **275** out of **5000+** participants in Code Clash 2025
- Bits and Bytes of Computer Networking - Google (2023)
- Hackerrank **5** star in Java.

## Leadership

- Volunteered in an E-cell entrepreneurship event with **500+** audience and **20+** participating teams.
